Overview
Your score report indicates whether you passed the test, how you performed on the test as a whole, and how you performed on each subtest. The minimum passing scores for the Illinois Licensure Testing System were established by the Illinois State Board of Education based on recommendations from panels of Illinois educators. The passing score is designed to reflect the minimum level of content knowledge required for effective performance in Illinois schools.

The Illinois Licensure Testing System (ILTS) Elementary Education (Grades 1–6) assessment consists of the following four independently-scored subtests:

- Language and Literacy
- Mathematics
- Science/Social Science
- Fine Arts, Physical Development, and Health

Your score report provides the following information regarding your results: your scaled score by subtest for the test date indicated, your testing history for the test by subtest, and information about your objective-level performance for subtests taken on the test date(s) indicated.

Evaluation Systems reports your official scores to you, to the Illinois State Board of Education (ISBE), and to the educator preparation program(s) you indicated during the registration process. In addition, approved Illinois educator preparation programs will be able to access any of your test results (pass or did not pass) posted to the Educator Licensure Information System (ELIS). You should keep the score report for your own records.

Scaled Scores
Your score for each Elementary Education (Grades 1–6) subtest is reported on a scale from 100 to 300. To pass the Elementary Education (Grades 1–6) assessment, you must obtain a scaled test score of 240 or higher on each subtest.

Your scaled score for each Elementary Education (Grades 1–6) subtest is based on the number of multiple-choice questions answered correctly; you do not "lose" any points for wrong answers. Each multiple-choice test question counts the same toward the subtest score.

Subtest History
This section of your report lists each Elementary Education (Grades 1–6) subtest you have passed to date and the date on which you passed it. Each subtest you have not yet taken is noted as "Not Taken." Please note that subtest history is not available on score report reprints.

Objective-Level Reporting
Your score report contains information regarding your performance to help you identify your relative strengths and weaknesses. For each subtest, you will find the number of scored subtest questions as well as the percentage of these questions that you answered correctly by an applicable test objective.
