General Information About the Illinois Licensure Testing System
The content tests are designed to assess a candidate's knowledge of content in the specific teaching, school service personnel, or administrative field in which licensure is sought. The tests are based on current and relevant expectations for teacher preparation students and for teachers in Illinois as defined by the Illinois Content Area Standards for Educators. This study guide is designed to focus your preparation by helping you become familiar with the format and content to be covered on the tests.

This section includes a list of test subareas and objectives, sample test directions, practice multiple-choice test questions, practice constructed-response assignments, performance characteristics and scoring scales, an explanation of the scoring process for the constructed-response assignments, and a score report explanation.

**TEST SUBAREAS AND OBJECTIVES**

The content covered by the test is organized into subareas. You will find a list of subareas at the beginning of the list of test objectives. Within each subarea, the content is further defined by a set of objectives. Each objective comprises two major parts:

1. the *objective statement*, which broadly defines the knowledge and skills that an entry-level educator needs to know; and

2. the *descriptive statements*, which describe in greater detail the types of knowledge and skills covered by the test objective.

The test objectives are broad, conceptual, and meaningful statements, written in language that reflects the skills, knowledge, and understanding that an entry-level teacher needs in order to teach effectively in an Illinois classroom. A test consists of test questions that measure an examinee's mastery of these test objectives.

Below is an example of a test objective statement and its accompanying descriptive statements for the Elementary/Middle Grades test.

*Objective Statement*

*Understand word analysis strategies and vocabulary development and how to use effective, developmentally appropriate approaches to promote students' word analysis and vocabulary skills.*
**Descriptive Statements**

- Demonstrate knowledge of phonics and its role in decoding; of ways to assess students' phonic skills; and of effective instructional strategies, activities, and materials for promoting students' phonetic analysis skills.

- Demonstrate knowledge of word analysis strategies, including syllabication, morphology (e.g., use of affixes and roots), and context clues; of ways to assess students' use of word analysis strategies; and of effective instructional strategies, activities, and materials for promoting students' word analysis and contextual analysis skills.

- Demonstrate knowledge of the role of vocabulary development in reading; of ways to assess students' vocabulary development; and of effective instructional strategies, activities, and materials for promoting students' vocabulary development.

The practice multiple-choice test questions represent the various types of test questions you may expect to see on an actual test; however, they are not designed to provide diagnostic information to help you identify specific areas of individual strengths and weaknesses or predict your performance on the test as a whole. Use the answer key located after the practice multiple-choice test questions to check your answers.

To help you identify which test objective is being assessed, the objective statement to which the question corresponds is listed in the answer key. When you are finished with the practice multiple-choice test questions, you may wish to go back and review the entire list of test objectives and descriptive statements once again.

This section includes the following:

This section includes the following:

- Description of the task
- Sample test directions for the written expression assignment
- A practice written expression assignment
- A sample response

On the actual test, examinees will be given a different written expression assignment from the one provided as a sample in this study guide.
DESCRIPTION OF THE WRITTEN EXPRESSION ASSIGNMENT TASK

In this section of the test, you will write in your answer document in the target language, in response to an assignment that describes in English an imaginary situation requiring written communication. Written responses will be evaluated on the basis of four major criteria:

<table>
<thead>
<tr>
<th>Purpose</th>
<th>the fulfillment of the objective of the assignment in reference to the intended audience, purpose, and occasion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Organization</td>
<td>the organization, development, and support of ideas</td>

<tr>
<td>Vocabulary</td>
<td>the selected vocabulary and idiomatic expressions</td>
</tr>
<tr>
<td>Grammar</td>
<td>the constructed grammatical forms, character formations, and syntactic constructions, including spelling, diacritical marks, and punctuation</td>
</tr>
</tbody>
</table>

An excellent response to the written assignment would fully address the assigned topic and develop the topic by extensive elaboration on specific points. The message would be clearly and effectively communicated in an appropriate manner. Ideas would be coherently presented and the flow of language would be smooth and varied and organized into well-constructed sentences. The vocabulary used would reflect a broad command of the target language and appropriate use of idiomatic expressions. The excellent response would exhibit control of grammar, avoiding errors in syntax that interrupt communication. The response would be accurate in spelling or character formation and in the use of diacritical marks and punctuation.
DIRECTIONS FOR SECTION THREE

Section Three of this test consists of a written assignment. The assignment appears on the following page. A list of suggestions is provided to help direct your response to the assignment. It is not necessary that you cover every point on the list, nor are you limited in your response to those points indicated. You are, however, required to write about the general assignment that you are given, and part of your score will be based on the degree to which you elaborate on the assignment by addressing either the suggested points or points of your choosing.

Your response must be written in the target language and may be up to two pages in length. You may use any blank space provided after the written assignment to make notes, write an outline, or otherwise prepare your response, but remember to record your final response on the lined pages of your answer document. Your score will be based solely on the response you write on the lined pages of your answer document.

Your response to the written assignment will be evaluated on the basis of the following criteria:

- **PURPOSE:** the fulfillment of the objective of the assignment in reference to the intended audience, purpose, and occasion
- **ORGANIZATION:** the organization, development, and support of ideas
- **VOCABULARY:** the selected vocabulary and idiomatic expressions
- **GRAMMAR:** the constructed grammatical forms, character formations, and syntactic constructions, including spelling, diacritical marks, and punctuation

Be sure to write about the assigned topic. Please write legibly. You may not use any reference materials during the test. Remember to review what you have written and make any changes that you think will improve your response.

Turn the page and continue with Section Three.
PRACTICE WRITTEN EXPRESSION ASSIGNMENT

Imagine that a colleague asks you for a recommendation for a job teaching Spanish at an international school. Write a letter in Spanish to the head of the department recommending the colleague for the job. In your letter you may wish to address, but are not limited to, the following topics:

• an example of a specific situation that shows your colleague's abilities as a teacher; and
• an explanation of why your colleague would fit in well at the school.

◆◆◆◆◆◆◆◆◆◆

FOR YOUR REFERENCE ONLY—This constructed-response item is written to assess understanding of Subarea V, "Written Expression," which consists of the objective listed below.

Use Spanish to present in writing information, concepts, and ideas for a variety of purposes to different audiences.
SAMPLE RESPONSE FOR THE WRITTEN EXPRESSION ASSIGNMENT

The sample below is an example of a strong response to the practice written expression assignment.

Estimado señor:

Tengo el gusto de remitir a Ud. esta carta en apoyo de la señorita María González, candidata de profesora para su escuela secundaria internacional. Hace diez años que conozco a la señorita González como colega aquí en Springfield.

Nuestro colegio es bastante grande con una población estudiantil de mil trescientos en los niveles nueve a doce. Son estudiantes de varias capacidades intelectuales y de diversas familias socioeconómicas. Ofrecemos muchos cursos diferentes porque, después de graduarse, nuestros estudiantes avanzan a la universidad, al servicio militar, o a la población activa en la comunidad. También ofrecemos muchas actividades para que los estudiantes puedan participar como deportes, clubes, dramas y programas musicales. Así, los profesores tienen las oportunidades de enseñar las clases y también de dirigir a cualquier grupo que les interesa.

La señorita González aprovecha de muchas actividades escolares para enriquecer y mejorar la vida de nuestros estudiantes. Como Ud. sabe de su currículo vitae, la señorita González es profesora de inglés. Recibió su licenciatura de la Universidad de Illinois a Chicago hace veinte años pero sigue estudiando ambos el inglés y los métodos más avanzados de enseñanza, así que sus clases son interesantes y activas con estudiantes que participan con entusiasmo. Tiene experiencia con todo tipo de estudiante desde el más inteligente hasta el menos motivado. También ella dirige al club de futuros líderes. Estos estudiantes trabajan para mejorar el ambiente de nuestro colegio y también para educar a los jóvenes menores para que se mejoren en sus técnicas de estudiar y eviten el uso de tabaco y drogas. Su salón de clase es un lugar donde todos se sienten seguros e importantes.

Me da mucho placer en recomendarle a Ud. a la señorita María González. Sus estudiantes tendrán gran éxito debido a su sabiduría en el campo de enseñanza de lenguas. Además apreciarán su entusiasmo y su verdadero amor de los jóvenes.

Confío en que su respuesta sea afirmativa.

Muy atentamente,

Señora Susana Iturbe de Lorca
ORAL EXPRESSION ASSIGNMENT SECTION

This section includes the following:

- Description of the task
- Sample test directions for the oral expression assignment
- A practice oral expression assignment

On the actual test, examinees will be given a different oral expression assignment from the one provided as a sample in this study guide.
DESCRIPTION OF THE ORAL EXPRESSION ASSIGNMENT TASK

In this section of the test, you will speak on tape in the target language, in response to an assignment that describes in English an imaginary situation requiring oral communication (e.g., a problem you encounter while traveling in an area where the target language is spoken). You will read the assignment in your test booklet and have one minute to consider your response, then two minutes to speak. Speech samples will be evaluated on the basis of five major criteria:

<table>
<thead>
<tr>
<th>Purpose</th>
<th>the fulfillment of the objective of the assignment in reference to the intended audience, purpose, and occasion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fluency</td>
<td>the fluent and developed communication of the message</td>

<td>the articulation and pronunciation of words and phrases</td>
</tr>
<tr>
<td>Vocabulary</td>
<td>the selected vocabulary and idiomatic expressions</td>
</tr>
<tr>
<td>Grammar</td>
<td>the constructed grammatical forms and syntactic constructions</td>
</tr>
</tbody>
</table>

An excellent response to the assignment would address the assigned topic and develop the topic by extensive elaboration of specific points. The response would be delivered in a consistently clear manner. The speaker would speak fluently, using a variety of sentences. The speaker's vocabulary would show mastery of a broad vocabulary including appropriate idiomatic expressions. The speaker would handle simple and complex linguistic constructions, avoiding errors that interfere with communication. The speaker would exhibit good to excellent pronunciation and intonation.
SAMPLE TEST DIRECTIONS FOR THE ORAL EXPRESSION ASSIGNMENT

DIRECTIONS FOR SECTION FOUR

You will read the assignment in your test booklet and have one minute to consider your response, then you will have two minutes to speak. A list of suggestions to help direct your response will be provided. It is not necessary that you address every point in the list, nor are you limited to the points provided. However, what you say must be relevant to the situation with which you are presented, and part of your score will be based on the degree to which you elaborate on the topic by addressing either the suggested points or points of your choosing. You may NOT write in this test booklet. You will be scored only on the response that you provide on the tape after the announcer instructs you to begin speaking.

Your response will be evaluated on the basis of the following criteria:

- **PURPOSE:** the fulfillment of the objective of the assignment in reference to the intended audience, purpose, and occasion
- **FLUENCY:** the fluent and developed communication of the message
- **PRONUNCIATION:** the articulation and pronunciation of words and phrases
- **VOCABULARY:** the selected vocabulary and idiomatic expressions
- **GRAMMAR:** the constructed grammatical forms and syntactic construction

Once the tape has begun, it cannot be stopped, nor can you rerecord your response.

When you have finished reading these directions, please look up. You will receive further instructions from your test administrator.

Look up when you are ready to begin Section Four.

STOP

DO NOT GO ON UNTIL YOU ARE TOLD TO DO SO.
PRACTICE ORAL EXPRESSION ASSIGNMENT

Read the instructions below. You will have 1 minute to study these instructions. Then, when you are told to do so, begin to respond in Spanish. You may take up to 2 minutes to complete your response. You will be told when the 2 minutes are up. You may begin studying the instructions now. You will be told when to begin speaking.

(You will read in the test booklet:)

Imagine that you would like to go on a two-week trip to Spain, but are uncertain which parts of the country you would like to visit. Call a Spanish travel agency to get some help planning your trip. Speaking in Spanish, explain to the travel agent what you would like to do and see on your trip. You may wish to include, but are not limited to, the following topics:

• a description of the types of activities in which you like to participate on vacation;
• a description of the types of places you would like to see; and
• information about when and how you would prefer to travel.

(You will have 1 minute to study the instructions above. Then you will have 2 minutes to respond on the audiotape.)

FOR YOUR REFERENCE ONLY—This constructed-response item is written to assess understanding of Subarea VI, "Oral Expression," which consists of the objective listed below.

In response to a prompt, effectively communicate an oral message in Spanish that includes a range of vocabulary, idiomatic expressions, complex language structures, and sociolinguistic appropriateness.
EXPLANATION OF THE SCORING PROCESS FOR
THE CONSTRUCTED-RESPONSE ASSIGNMENTS

This section is designed to provide you with an explanation of the scoring process for the constructed-response assignments.

The first constructed-response assignment is designed to assess Subarea V, "Written Expression" and the second constructed-response assignment is designed to assess Subarea VI, "Oral Expression."

THE SCORING PROCESS

Constructed responses will be rated on a four-point scoring scale. There is one scoring scale for the Written Expression assignment (see page 2-28) and another scoring scale for the Oral Expression assignment (see page 2-29). For each scoring scale within the range of scores (i.e., from 1 to 4), a response that receives a score point of 1 is an undeveloped response, while a score point of 4 is assigned to a response that is very well developed. Specific performance characteristics describe the elements typically found in responses at each of the four score points, although any particular response may be either more or less developed in respect to any specific elements.

Each category of the four-point scale will comprise a range of ability across that particular score. Thus, among the most competent constructed responses, there will be those that represent a "high 4" (the best) as well as those that represent a "low 4" (clearly superior responses, but they are not quite as well constructed as the "high 4"). This range of ability holds true within each of the other three points on the scoring scale.

Each response will be scored by two readers; the sum of the two readers' scores will be the examinee's total score for each constructed-response assignment. Any pair of scores that differs by more than one point will be regarded as discrepant and will require resolution by a third reader. For example, a total score of 6 would result from the assignment of a "3" and a "3" from each of two readers; it could not result from assigned scores of "2" and "4" because the scores differ by more than one point.

The performance characteristics for each score point for the written expression constructed-response assignment are organized according to four major features: (1) purpose, (2) organization, (3) vocabulary, and (4) grammar. Each of these performance characteristics is described in more detail on page 2-28. Detailed characterizations of the score point features are described in the scoring scale on page 2-28.

The performance characteristics for each score point for the oral expression constructed-response assignment are organized according to five major features: (1) purpose, (2) fluency, (3) pronunciation, (4) vocabulary, and (5) grammar. Each of these performance characteristics is described in more detail on page 2-29. Detailed characterizations of the score point features are described in the scoring scale on page 2-29.

OVERVIEW

The score report indicates whether or not you passed the test and how you performed on each test subarea. The passing scores for the Illinois Licensure Testing System were established by the Illinois State Board of Education based on recommendations from panels of Illinois educators. The passing score for each foreign language content-area test is designed to reflect the level of content knowledge and skills required to perform the job of an educator receiving an initial license in Illinois.

Passing Score

To pass a foreign language content-area test you must obtain a scaled total test score of 240 or above.

Total Test Score

The total test score is based on your performance on the entire test, specifically the number of multiple-choice questions you answered correctly and the scores you received on the two constructed-response assignments. The multiple-choice items represent 67 percent of the total test score and the constructed-response assignments represent 33 percent of the total test score.

Subarea Scores

- Subarea scores are presented on the same scale as the total test score.
- Subarea scores contain different numbers of questions and are weighted differently in the computation of the total test score; therefore, the average of the subarea scaled scores generally will not equal the scaled total test score.
- Subarea scores will help you assess your areas of relative strength and weakness.

Reporting of Scores

Your results will be forwarded to the Illinois State Board of Education and to the Illinois institution(s) you indicate during the registration process. You should keep the score report you receive for your own records.

According to the above sample, the examinee did not pass the Foreign Language: Spanish test 1, because the examinee's total test score of 236 2 is below the passing score of 240.

In regard to the multiple-choice section of the test, the examinee did better on the Language Structures and Language Acquisition subarea 3 of the test than on the Reading Comprehension subarea 4. The examinee will need to retake the test and achieve a total test score of 240 or higher to pass the test. The score report indicates the number of items for each subarea on the test 5.

An insert will be included with your score report that provides information about interpreting the Performance Graph.

HOW TO INTERPRET THE CONSTRUCTED-RESPONSE SCORES

The responses are scored by educators trained in assessment, using the same standards for all examinees, by a process called focused holistic scoring. The process allows the scoring of examinee responses based on overall quality rather than on an analysis of the components. For the constructed-response assignments, scorers use a set of performance characteristics to base their judgments. In general, if a passing score is attained for the constructed-response test sections, it is likely that the performance characteristics have been demonstrated in the responses.

Each response is scored on a scale from 1 to 4, with 1 representing a totally undeveloped response and 4 representing a response that is very well developed. Each response is read or listened to and scored by two scorers; the sum of the two scores is the total score assigned to the response. This score is then converted to the scaled score that is reported on your score report.

Scaled scores are reported on a range from 100 to 300. A total test score of 240 or above is necessary to pass the test. Further explanation regarding the interpretation of your constructed-response scores will be provided on your score report.
